

AYANANGSHU DEY

BEng, MEng, PhD, CEng FICE, MASCE, MIE

ICE Kolkata Representative and Independent (Water and Wastewater) Consultant

Ayan is an independent water and wastewater engineering professional with Bachelor's and Masters' degrees from India and a PhD in wastewater management from USA.

He has more than 20 years of professional and research experience in Indian and overseas projects funded by national and international agencies in multi-cultural environment. His varied exposure in strategy formulation, investment planning, feasibility studies, master plans, resource optimization, sustainability, review and assessment, detail engineering design, and asset management, mainly pertains to municipal water systems. He has worked with a range of national and international consulting firms in a variety of projects in Oman, Bangladesh, and Nepal.

Ayan has over 25 international publications and a book to his credit. As a Fellow of ICE, he volunteers as ICE's Kolkata Representative, CPR reviewer, journal reviewer, and contributes to promote civil engineering at local and national levels.

His interests include movies, music, politics, history, technical reading, and writings.
