

Cosmin Tobolcea

PhD.eng.ec.

General Manager PRO TOBY - Romania

email:cosmin.tobolcea@protoby.ro

phone: +40.723.56.88.73

Cosmin has graduated his **PhD. in Civil Engineering** at Iasi Technical University from Romania and has over **15 years of experience in project implementation in Romania and abroad** (Republic of Moldova, Hungary, Poland etc.). He was involved in many projects as an engineer-supervisor and consultant/advisor in the field of water and wastewater infrastructure. He published **19 papers** in the last years at different technical international conferences from Romania, Italy, Spain, Japan, Morocco, Bulgaria, Poland, Indonesia, Germany etc. Also, he is a **co-author of 12 technical books** in the field of engineering and consulting for **water & wastewater infrastructure**.

Currently he is the **General Manager of Pro Toby**, one of the leading engineering and consulting companies in Romania providing services of planning, design, consulting and management of water and wastewater infrastructure, working on **FIDIC contracts (Red&Yellow)** for projects financed by European Union.

Starting with **September 2018**, he is also **the Chair of the FIDIC Young Professionals Steering Committee (YPFSC)** and also a **member of FIDC Sustainable Development Committee** and a **vice president of ARIC (Romanian FIDIC MA)**. Cosmin has an active participation in the international and regional FIDIC conferences, being part of the YPFSC which implemented last year the Young Professionals Award, the first time in the history of FIDIC this was awarded at the FIDIC International Infrastructure Conference from Marrakesh, Morocco, 2016. In the same time, he worked on strengthening the collaboration between FIDIC YP and EFCA YP, work which concluded with the collaboration memorandum, signed in Morocco at the FIDIC International Conference, between these two important FIDIC YPs groups.
